HARDWARE MANUAL

Revision 2.00

GLOBAL TECHNICAL SUPPORT

Go to https://support.aerotech.com/servicedesk/customer/portal/1 for information and support about your Aerotech, Inc. products. The website supplies software, product manuals, Help files, training schedules, and PC-to-PC remote technical support. If necessary, you can complete Product Return (RMA) forms and get information about repairs and spare or replacement parts. To get help immediately, contact a service office or your sales representative. Include your customer order number in your email or have it available before you call.

This manual contains proprietary information and may not be reproduced, disclosed, or used in whole or in part without the express written permission of Aerotech, Inc. Product names mentioned herein are used for identification purposes only and may be trademarks of their respective companies.

⁽²⁾ Refer to Section 1.5. for configuration details.

⁽³⁾ After the HyperWire or FireWire card is installed.

1.2. Remote Server Operation

If you ordered the -SW01 software package with the -Remote option and it was installed and configured at the factory, the software installed on the A3200 iPC will be configured for remote server operation. In this configuration, only one of the available Ethernet ports will be configured for use with the remote server. Refer to the figures below to determine which port you should use for each A3200 iPC hardware configuration.

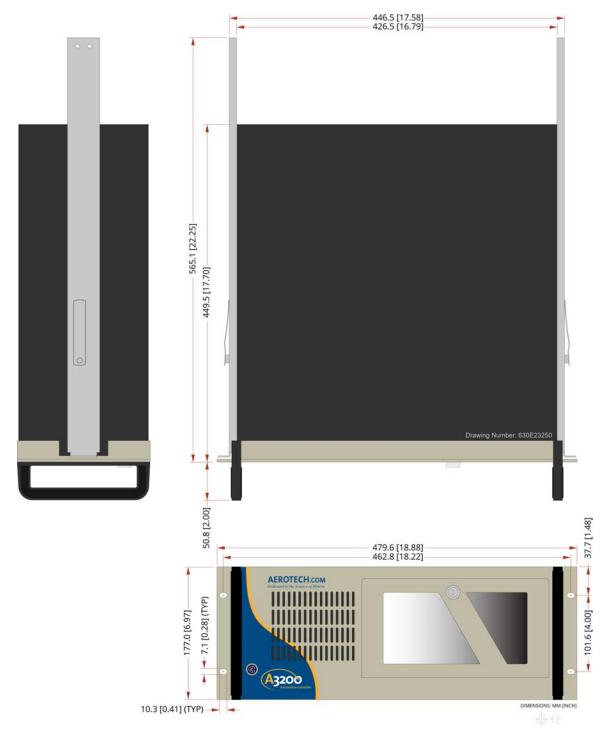

Figure 1-12: 4U Rack Mount Chassis with Slides Dimensions (-R401)

1.4. AC Power Setting

You can change the BIOS setting on the PC so that, in the event of a power failure, you will not need to access the PC to manually turn the PC back on. Use this item to select AC power state when power is reapplied after a power failure.

Table 1-5: BIOS Settings

PC Type	BIOS Category	Settings
-CC02 -CC03	State after G3	Power On
-R103	Restore AC Power Loss	S0 State
-R402	Restore AC Power Loss	S0 State
-DT01	Restore AC Power Loss	S0 State
Legacy: -R101 -R102	AC Power Loss	Power OffPower On [our default]Last State
Legacy: -R401	Restore AC Power Loss	Power OffPower On [our default]Last State

1.5. DVI Monitor Configuration (-R103, -R402, -DT01 PC Options)

To let the Windows OS operate without a monitor connected, both the AIMB-785 motherboard and the standard Advantech-provided BIOS are configured to report to the Windows OS that a VGA monitor is always connected as the default primary display. If you connect a single DVI monitor to one of the rack mount (-R103 or -R402) or desktop (-DT01) computers, the BIOS will continue to report to Windows that the VGA monitor is also connected. You will need to update the Windows Display settings to get the system to correctly identify the DVI monitor. Either duplicate the Windows desktop to both monitors or identify and set the DVI monitor as the primary display.

1.6. Environmental Specifications

Table 1-6: Environmental Specifications

Ambient	Operating: 0° to 40°C
Temperature	Storage: -30° to 85°C
Humidity	The maximum relative humidity is 80% for temperatures that are less
Non-condensing	than 31°C and decreases linearly to 50% relative humidity at 40°C.
Operating Altitude	0 m to 2,000 m above sea level. If you must operate this product above 2,000 m or below sea level, contact Aerotech, Inc.
Pollution	Pollution Degree 2 Typically only nonconductive pollution occurs.
Operation	Use only indoors

This page intentionally left blank.

Appendix A: Warranty and Field Service

Aerotech, Inc. warrants its products to be free from harmful defects caused by faulty materials or poor workmanship for a minimum period of one year from date of shipment from Aerotech. Aerotech's liability is limited to replacing, repairing or issuing credit, at its option, for any products that are returned by the original purchaser during the warranty period. Aerotech makes no warranty that its products are fit for the use or purpose to which they may be put by the buyer, whether or not such use or purpose has been disclosed to Aerotech in specifications or drawings previously or subsequently provided, or whether or not Aerotech's products are specifically designed and/or manufactured for buyer's use or purpose. Aerotech's liability on any claim for loss or damage arising out of the sale, resale, or use of any of its products shall in no event exceed the selling price of the unit.

THE EXPRESS WARRANTY SET FORTH HEREIN IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, BY OPERATION OF LAW OR OTHERWISE. IN NO EVENT SHALL AEROTECH BE LIABLE FOR CONSEQUENTIAL OR SPECIAL DAMAGES.

Return Products Procedure

Claims for shipment damage (evident or concealed) must be filed with the carrier by the buyer. Aerotech must be notified within thirty (30) days of shipment of incorrect material. No product may be returned, whether in warranty or out of warranty, without first obtaining approval from Aerotech. No credit will be given nor repairs made for products returned without such approval. A "Return Materials Authorization (RMA)" number must accompany any returned product(s). The RMA number may be obtained by calling an Aerotech service center or by submitting the appropriate request available on our website (www.aerotech.com). Products must be returned, prepaid, to an Aerotech service center (no C.O.D. or Collect Freight accepted). The status of any product returned later than thirty (30) days after the issuance of a return authorization number will be subject to review.

Visit https://www.aerotech.com/global-technical-support.aspx for the location of your nearest Aerotech Service center.

Returned Product Warranty Determination

After Aerotech's examination, warranty or out-of-warranty status will be determined. If upon Aerotech's examination a warranted defect exists, then the product(s) will be repaired at no charge and shipped, prepaid, back to the buyer. If the buyer desires an expedited method of return, the product(s) will be shipped collect. Warranty repairs do not extend the original warranty period.

Fixed Fee Repairs - Products having fixed-fee pricing will require a valid purchase order or credit card particulars before any service work can begin.

All Other Repairs - After Aerotech's evaluation, the buyer shall be notified of the repair cost. At such time the buyer must issue a valid purchase order to cover the cost of the repair and freight, or authorize the product(s) to be shipped back as is, at the buyer's expense. Failure to obtain a purchase order number or approval within thirty (30) days of notification will result in the product(s) being returned as is, at the buyer's expense.

Repair work is warranted for ninety (90) days from date of shipment. Replacement components are warranted for one year from date of shipment.

Rush Service

At times, the buyer may desire to expedite a repair. Regardless of warranty or out-of-warranty status, the buyer must issue a valid purchase order to cover the added rush service cost. Rush service is subject to Aerotech's approval.

On-site Warranty Repair

If an Aerotech product cannot be made functional by telephone assistance or by sending and having the customer install replacement parts, and cannot be returned to the Aerotech service center for repair, and if Aerotech determines the problem could be warranty-related, then the following policy applies:

Aerotech will provide an on-site Field Service Representative in a reasonable amount of time, provided that the customer issues a valid purchase order to Aerotech covering all transportation and subsistence costs. For warranty field repairs, the customer will not be charged for the cost of labor and material. If service is rendered at times other than normal work periods, then special rates apply.

If during the on-site repair it is determined the problem is not warranty related, then the terms and conditions stated in the following "On-Site Non-Warranty Repair" section apply.

On-site Non-Warranty Repair

If any Aerotech product cannot be made functional by telephone assistance or purchased replacement parts, and cannot be returned to the Aerotech service center for repair, then the following field service policy applies:

Aerotech will provide an on-site Field Service Representative in a reasonable amount of time, provided that the customer issues a valid purchase order to Aerotech covering all transportation and subsistence costs and the prevailing labor cost, including travel time, necessary to complete the repair.
